Vessel Name: *MV Powerplay*

Description

This 45ft Precision Game Fishing cruiser offers the flexibility of accommodating up to 4 guests on board in air-conditioned comfort, or as a day boat alongside a mothership.

Captains John Gill and Col Grimes have each had 18 years experience fishing the Pacific, Indian and Atlantic Oceans catching black marlin, blue marlin, white marlin and sailfish, and both have personal tournament wins.

Powerplay features all modern electrics, TV, video, 240-volt power, plenty of freezer and refrigeration space and quality custom tackle.

Experience the wonders of the finest coral reef in the world. Snorkel or scuba after breakfast and at the end of the day anchor in calm water behind the reef with cocktails and hors d'oeuvres served against spectacular sunsets on Australia's Great Barrier Reef.

Specialising in tournament fishing and charter out of Lizard Island, Powerplay is available for extended charters, remote Cape York mothership options, and lure and fly fishing.
